## ACm

## Application

- Can be used to transfer clean water or other liquids similar to water in physical and chemical properties
- Suitable for industrial use and urban water supply, pressure boosting for high buildings and fire fighting, garden irrigation, long-distance
water transfer, heating ventilation and air controling circulation and water transfer, heating ventilation and air controling, circulation and
pressure boosting for cold and hot water, and supporting equipment etc.

## Pump

Cast iron pump body and support under special anti-rust treatment

- AISI 304 shaft
- Max. liquid temperature: $+40^{\circ} \mathrm{C}$

Max. suction: +8 m

## Motor

- C\&U bearing

Motor with copper winding
Built-in thermal protector for single phase moto

- Insulation class: F
- Max ambient temperature $+40^{\circ} \mathrm{C}$

Identification Codes
AC m 110 B 2

## Technical Data
